A Businesslike City Government.

The government of Manchester is a businesslike one. Its liabilities are about \$150,000,000; its assets are about \$147,000,000; and the deficiency, about \$3,000,000, represents the amount which the rate-payers have to contribute each year. The figures indicate that it is a big business. The management of this big business is absolutely in the hands of the city council, acting through its committees. As I have said, the system is simple, and the responsibility cannot be evaded as it can in a muddled-up, complicated system like that of New York or Chicago or Newark.

The people know what has to be done, and they know who has to do it. But, even at that, big figures are confusing to the average mind. And then, too, it is well to submit the figures which a city council publishes to an unsympathetic eye. And so, because the people of Manchester propose to know what is done with their money, they have in their service two men whose business it is to investigate and publish at regular intervals, every tendency of the council toward carelessness or extravagance. Never for a moment are the councilors permitted to forget whose money it is that they are managing with such fluent ease.

These two men are known as "elective auditors." They are elected directly by the people, and the more meretricious their attacks on the council the better they please the people. They are free from the slightest obligation to the council. They have access to all facts and figures, and the people of Manchester find it difficult to understand why their government, managed by their personal representatives with their money, should not work wholly in the light. These reports are published weekly in the Manchester "City News."—Samuel Merwin in "Success Magazine."

Now a Good Angel Wagon.

It is time to rechristen the automobile. For a while it was called a "devil wagon," but it has earned the right during the trying times through which we have passed to be called by another name. It is hard to tell what we should have done without them. That they have helped to put us into men by enabling them to get about when all other means of transit had given out, is known to all, and for that, if for nothing else, they deserve our gratitude.—San Francisco Chronicle.

A UNIQUE RECORD

Not Another Like It in Our Broad Republic.

To give positive home testimony in every locality is of itself unanswerable proof of merit; but when we add to this the continued endorsement from people who testified years ago no evidence can be stronger. A Barre citizen gratefully acknowledges the good received from Doan's Kidney Pills, and when time has tested the cure we find the same hearty endorsement, with added enthusiasm and continued praise. Cases of this kind are plentiful in the work of Doan's Kidney Pills and such a record is unique in the annals of medicine.

C. A. Churchill, contractor and builder, of 35 Merchant street, Barre, Vt., says: "I recommend Doan's Kidney Pills, which I got from E. A. Drown, druggist, through our Barre newspapers in a statement given eight years ago. I used them at that time and was so greatly benefited that I kept on taking them until the symptoms of kidney complaint and weakness of the back and loins disappeared. It is now as much pleasure to recommend this valuable remedy as it was at the time when they relieved me of my pain and suffering. I have on several occasions used Doan's Kidney Pills since then and always with the same good results. They are certainly worthy of endorsement and I have advised many friends and acquaintances to use them."

For sale by all dealers. Price, 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's and take no other.
